ONGOING PROJECTS

- 1). Climate Change, Agricultural Adaptation and Food Security in Kenya. Project collaborators: Richard M. Mulwa; Salvatore Di Falco. Project funded by Environment for Development initiative (2014-2015). **Objective:** The study is modeling agricultural adaptation by households in Kenya and its impact on food security and estimate response of yields and value of farm output to climate change
- 2). Water pricing and the demand for municipal water and sanitation services in Kenya. Collaborators. D. Fuente et al. (2015-2016). Project to be funded by Environment for Development initiative (2015-2016).
- 3). Influence of Weather Factors and Climate Change Adaptation Strategies on Farm Productive Efficiency in Different Agro-Ecological Zones in Kenya. Project collaborator: Richard M. Mulwa. Project to be funded by Environment for Development initiative (2015-2016).
- 4). Increasing block tariffs and the relationship between income and water use in Nairobi, Kenya.

Project collaborators: David Fuente; Moses Ikiara; Josephine Gatua; Mbutu Mwaura; Dale Whittington. Project funded by Environment for Development initiative (2013-2015). **Objective:** This study seeks to characterize the incidence of de facto subsidies delivered through the water tariff in Nairobi, Kenya. An extension of the study will investigate the relationship between household incomes and water use in Urban Kenya.

5). Women's early labour market transitions in Eastern and West Africa. Project collaborators: Andy McKay et al. Project funder: IDRC (2014-2017). **Objective:** The general objective of the project is to understand the factors influencing the nature of the school to work transition for young women in Eastern and West Africa, as well as the long term consequences of these early choices.

6). Productive Employment in the Segmented Markets of Fresh Produce. Project collaborators: Bekele Shiferaw et al. Project funder: NTO-WOTRO- 2014-2016. **Objective:** To analyse the impact of market segmentation in the market for fresh produce on productive employment in Kenya and to test the impact of a number of proposed policies in the National Avocado Commodity Business Plan on segmentation and productive employment.

7). Economics of Restoration of the Yala Swamp in Kenya. Project collaborators: Richard Mulwa et al. Project funder: UNEP (2014-2015). **Objective:** Estimate economic value of the ecosystem services of Yala Swamp by conducting a full economic valuation study under alternative policy driven scenarios
