Profile

Wilfred Nyangena is currently the coordinator of EfD-Kenya and a senior lecturer at the School of Economics, University of Nairobi. His areas of interest include development, poverty, valuation and environmental economics with a bias on the interaction between poverty and environmental variables. He holds a PhD in Economics from Göteborg University, Sweden. Wilfred has won research grants in his areas of specialization from both local and international organizations. Nyangena has research experience on policy links with African Institute for Capacity Building (AICAD) under which he has worked on issues on poverty, environment nexus. His research work has been published in Environment, Development and Sustainability Journal.
